

# ZAZAPUD

## HYGIENE PROJECT

COMPLETED  
AUGUST 2013

The students from this school in the town of Zazapud located in the province of Colta, had to cross this very dangerous intersection daily to get to their only bathroom. Thanks to the work from all MEDLIFE volunteers from all across the United States and Canada, they were about to successfully construct 3 bathrooms which will benefit over 200 children in this small school.
